

Connect with your **WATERSHED!**

Want to make a positive impact in the wild lands that burned in the 2017 Mendocino Complex fire?

Join the Willits Watershed Project!

September 14th 9:00 am-1:00 pm

(or as scheduled, for interested groups)

Contact anuebel@ncrcanddc.org for directions

The North Coast Resource Conservation & Development Council (NCRC&DC) is seeking individuals, families, and multi-generational volunteer groups to facilitate the post-fire recovery of the Davis Creek Watershed. Though many of the plants in the watershed ecosystem are re-sprouting, they need protection from herbivores until they are big enough to survive unaided.

Volunteer with the NCRC&DC to help build sapling cages and other protection for vulnerable seedlings of oaks and manzanita in the Davis Creek Watershed...

The place that brings Willits its drinking water!

Get connected with the place that brings Willits one of its most vital resources!

If you or your community group is interested in participating on these or other dates:

Contact: Alina Nuebel, Conservationist with the NCRC&DC

(707) 978-4149 anuebel@ncrcanddc.org

More information at ncrcanddc.org

The North Coast Resource Conservation & Development Council performs environmental education and action with youth and the community to make a real difference in pollinator protection, water conservation, climate change, and healthy, sustainable agriculture and communities on our rural north coast.
